

Business Mobile Phones

Save time and money on
your business mobile phones
with Excel Communications.

We work closely with leading networks to ensure that we can offer our customers the best services, connections and deals to suit all business requirements.

TAILOR-MADE PACKAGES FOR BUSINESS COMMS

As an independent company, we can tailor packages to match your individual needs while helping you make savings.

MOBILE DEVICE MANAGEMENT

A comprehensive MDM solution for enhancing enterprise mobility and enabling BYOD initiatives.

MOBILE BROADBAND SUPERFAST 4G & 5G

Mobile Broadband allows you to work without needing a fixed-line connection. Get online, any time, anywhere.

EXCEL PHONE CARE ASSURANCE

Complete cover for your phone in case it gets accidentally damaged, stolen or lost for a minimal monthly outlay.

GREAT VALUE UNLIMITED CALL & DATA BUNDLES

Get new phone numbers or migrate existing ones. Make and receive calls using competitive call rates and minutes.

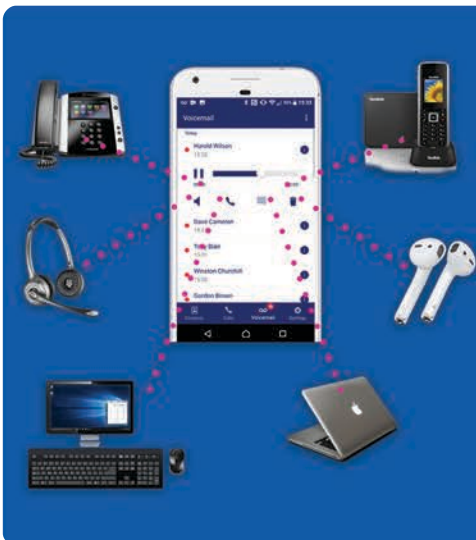

MACHINE TO MACHINE CONNECTIVITY (M2M)

Combine your physical and digital worlds by managing your staff and systems on-site or remotely with M2M solutions.

Excel Communications is trusted by business users throughout the UK for our extremely competitive pricing and our professional customer service.

Mobile devices are at the heart of how almost all businesses communicate and are now, more often than not, the device of choice for users.

One number. One voicemail. Connect is a streamlined telephony system that proves cost effective, whilst having all the features a business needs for improved staff collaboration and customer engagement.

With call recording functions and the ability to track all aspects of incoming and outgoing calls, getting the right management information from your telephony system has never been easier.

Data for Any Device

Mobile Broadband allows you to do your job without needing a fixed-line phone connection, wherever you are. If your devices have the function to fit a sim card, then we're good to go! We'll find the right type for your iPads, tablets, laptops, etc – or provide a dongle that can be plugged in via USB.

We work with you to identify how to save you money on your current annual spend on business mobile phones by finding the best and most appropriate tariffs for your business. We work with the UK's biggest phone networks, which means we are able to offer you deals that aren't available through other suppliers. Get in touch with our team of experts today to discuss your requirements.
