Excel Communications

VoIP Phone Systems

OUR CLOUD-BASED PHONES DELIVER EVERYTHING YOU NEED WITHOUT HASSLE

Excel Communications can migrate your existing traditional phone lines to a modern system.

Depending on how your company functions and the features you require, our cloud-based Voice over IP systems can bring your company into the modern era.

ENTERPRISE-GRADE CLOUD TELEPHONY

Reliable and secure calling from cloud servers located in the United Kingdom and throughout the EMEA region.

TAKE BUSINESS CALLS FROM ANYWHERE

A consistent experience across your computer, moble and desk phone. Make calls and join meetings with one-click.

MICROSOFT 365 INTEGRATION

We can offer an all-in-one communication solution by bringing together calling, chat and meetings into a single application.

COLLABORATE WITH INSTANT MESSAGING

Chat and collaborate with colleagues through instant messaging functions on modern VoIP phones and soft phone.

PHONE NUMBERS & CALL BUNDLES

Get new phone numbers or migrate existing ones. Make and receive calls using comptative call rates and minutes.

STREAMLINE & REDUCE COSTS

As legacy phone lines cost money, we can consolidate lines to minimise future costs. No phone lines and oodles of features.

Our hand-picked range Polycom, Cisco, Yealink and Connect phones serve businesses with great features and stable performance.
